25X1
SUBJECT: Port of TALLINN, ESTHONIA
I- ORGANIZATION
9 electrically operated cranes at the loading and unloading pier. 25X1
They extended up to the electrical power station.
The shippard provides to grids and it is serviced with 4 cranes. One of the grids
had an approximately 16000 ton tanker on it the outside works were being added, bridge etc.
The other grid was beginning to construct another ship.
Drydocks were being constructed in area no. 1.
II- FLOATS
A drydock was located at area no. 2.
III- DOCKED SHIPS
A loaded Bulgarian ship was in port. Itie name was "CHRISTO VOTEV". It was unloading
cardboard crates similar to the used to pack raisins.
